

Abstract (Kiswahili):

Kutambua Utajiri wa Utamaduni wa Kiafrika katika Teknolojia ya Habari (IT) ni muhimu sana katika kuleta mabadiliko na uvumbuzi katika eneo hili muhimu. Utamaduni wa Kiafrika, unaowakilisha tofauti za lugha, tamaduni, na mila, unatoa msingi imara wa kufikiria na kubuni suluhisho zenye athari kubwa katika IT. Kwa kuzingatia muktadha huu, ni muhimu pia kuzingatia uelewa wa kina wa jinsia katika jamii za Kiafrika. Kupigania usawa wa jinsia na kukuza ufahamu wa kijinsia katika IT ni muhimu kwa kuhakikisha uvumbuzi unaowashirikisha wote na kusaidia maendeleo ya kijamii. Kupitia utafiti huu, tumegundua kuwa kujumuisha utamaduni wa Kiafrika na kutilia maanani masuala ya kijinsia kunatoa fursa kubwa za ubunifu na maendeleo katika IT, ikitoa mwito kwa wote kufanya kazi kwa pamoja katika kuleta mabadiliko chanya kwa bara la Afrika.

Abstract (English):

Recognizing the Richness of African Culture in Information Technology (IT) is crucial in bringing about change and innovation in this vital field. African culture, representing the diversity of languages, cultures, and traditions, provides a solid foundation for conceptualizing and designing impactful solutions in IT. In this context, it is also important to consider a profound understanding of gender dynamics within African societies. Advocating for gender

equality and promoting gender awareness in IT is essential to ensure inclusive innovation and social development. Through this research, we have discovered that integrating African culture and addressing gender issues provides significant opportunities for innovation and development in IT, calling for collective efforts to bring about positive change for the African continent.

Abstract (Kalenjin):

Kutambua Leusik Chemaninjei che Afrika chuny Jehitkei Teknolojia a IT ni kaweemin kitet keborot kwo Teng'ojok ait.
